Attractive Oxfords

Three styles only mentioned from among all the new styles here for women. These three selected because they are especially new and charming.

Laird, Schober & Co. Ribbon Tie.

A dress low shoe, made of patent calf, very light and flexible turn sole, plain toe and military heel, wide silk laces, large eyelets, price \$5.00.

The New Pump.

In four leathers: Black gun metal calf and black ooze calf, \$4.00; patent colt skin and blue suede, at \$5.00. Pumps met with great favor last season on account of the attractive appearance they give the foot and the ease with which they are put on. Our Pump this season does not slip at the heel.

\$3.50 Patent Colt Oxford.

One style with two large eyelets, the other with three, very wide laces, both with flexible turn soles and medium heels.

ANTI-VACCINATION.

Second Dose—It Ought to Take.

Editor Roundabout:

I assure you that I do not want to antagonize, nor to interfere in public health. If my case is in the wrong, I am assured of a good support, which urges me on. There are two sides to all questions, and the judge is to be the public. A presentation of facts and truths is all that is wanted. (Malice and enmity not allowed.)

The endorsement of vaccination so strongly by the health board, is a perpetual monument to their credit, and will go down in history in memorial. I do not attempt to question their sincerity, nor the good will they have for the public's health. In presenting the facts of the terrible evils of this practice, which has to its credit one death and over fifty emaciated arms and developed disease in this city, with no proof to sustain its endorsement by the board of health, I assure them that the public does not and will not endorse the vaccination of the school children, without physical examination.

I quote you this statement made before the B. M. C., by one of the best medical authority, Dr. E. E. Hume: "That he refused to vaccinate Mr. H.'s son on account of hereditary tuberculosis—would give him free a certificate." What do you think of that? This statement alone condemns the manner of the board of health is trying to force upon the school children. Only trust to the results. There has appeared one bad arm from the last inoculation (at hospital). We trust there will be no more.

The reports of some of the surgeons in the U. S. Army during the Spanish-American war at Camp Chickamauga, giving the details of the ravages of vaccination. Many arms taken off. The entire army made unfit for duty. Many deaths attributed to it, and the condemnation of its use. The statements too long to print here. Vaccine virus is one of the commonest, strongest poisons produced by nature. It is the same as found in a corpse, and what the unclad used in poisoning their arrows; like the rot in an apple, one speck may contaminate an entire barrel. The meat we eat

BRILLIANT GRAND OPERA SEASON IN LOUISVILLE.

Mr. Henry W. Savage's Celebrated Company, With Orchestra of Fifty Pieces under Three Conductors, Coming to Macauley's Theatre in "The Valkyrie," "Lohengrin" and "Tannhauser" for Three Days, Beginning Thursday Evening, April 12.

The most brilliant society and operatic event in the musical history of Louisville will be the Wagner Opera Festival, of three days, beginning Thursday, April 12, by Mr. Henry W. Savage's combined Parsifal and English Grand Opera Company and orchestra of fifty musicians, will be at Macauley's Theatre for four performances.

Opera houses, Louisville, and surrounding cities have been looking forward to this rare occasion ever since the first announcement that Manager Savage would send his splendid organization to Louisville. It is to be the largest and most expensive aggregation of artists, musicians and productions that has ever attempted a cross-continent tour. The singing forces alone number over 150 people. To convey the enormous amount of equipment, including mechanical and electric effects, a special Grand Opera train of fourteen coaches and seventy-foot baggage cars is required.

The company itself is a combination of Mr. Savage's English Grand Opera company of last season, there being over a score of prima donnas, tenors, baritones and basses in addition to the great singing chorus of nearly 100 voices.

The Wagner opera is the most popular ever offered by any company of native artists. Wagner's sonorous music-dramas have become the most popular of all the great masterworks, and two of them are to be heard. The Opera Festival will open with a grand and mystic music-drama—"The Valkyrie," followed by "Lohengrin," with its romance of the Holy Grail Knight who rescues the Princess Elsa. Its beauties—Wedding of the Valkyries, the great ceremonies under Wagnerian conductors Elliott Schenck, "Lohengrin" is specially reserved for the Friday evening's bill.

One of the choicest offerings of the program will be Saturday night, when "Tannhauser" with its immortal overture, seductive Venusberg music, sung by Venus and the Minstrel Knight, the inspiring "Pilgrim's Chorus," great aria for the beautiful Elizabeth, and patriotic scenes to the Evening Star, for Wagner, will be given.

"The Valkyrie" will be Saturday matinee off. The performance will be arranged as follows.

Thursday evening, April 12, Pre-

lude at 7:30—"The Valkyrie," Friday evening, April 13, Overture at 8 p. m.—"Lohengrin," Saturday matinee, April 14, Pre-lude at 8 p. m.—"Tannhauser," Saturday evening, April 14, Overture at 8 p. m.—"Tannhauser."

Each opera will be staged with the same elaborate attention that has made the Savage productions famous, and the casts will be made up of the best English-singing artists on the stage.

It has always been a part of Manager Savage's educational plan in populating Grand Opera in English, to give his performances at prices so high that the money paid for other high-class theatrical attractions, so that all classes of music lovers may enjoy the entire series of operas. Accordingly the scale of prices will range from \$1 to \$25.00.

Season tickets for all performances are now on sale at Montenegro-Blehm Music Co., permitting patrons to select their seats for four performances in advance of the regular sale that opens on Monday, April 9, at the theatre. The price of the ticket is \$12.50. The money is to be sent to the managers containing remittances payable to John T. Macauley, manager Macauley's Theatre, Louisville, Ky., when accompanied by a self-addressed and stamped envelope to expedite delivery. The ticket will be sent to the place of location desired. Excursion rates have been announced on all railroads within a radius of 100 miles of Louisville during the opera season.

NEW I. & N. SCHEDULE TO LOUISVILLE SUNDAY.

Afternoon Train from Lexington One Hour Later—"Sunday Only" Train Arrives Late in Evening.

A new schedule by the Louisville and Nashville will be put into effect on Sunday, April 15, between Lexington and Louisville.

Passengers will not have to change cars between Louisville and Cincinnati from the train which leaves the First street station, Louisville, at 7:20 a.m. This train will be operated direct to Cincinnati, while a train which will leave the Tenth street station at 7:40 a.m. will go to Lexington direct. This train will meet the Cincinnati train at Lagrange, and passengers who inadvertently take the First street station train may change for Lexington at Lagrange.

LATER SUNDAY TRAIN.

Among the changes from the present time table is the operation of the "Sunday only" train from Louisville to Lexington. This formerly left the First street station at 5 p.m., but after Sunday will leave at 6:30 p.m., arriving in Lexington at 9:30.

The official announcement of the change in time and new schedules is as follows:

This is to advise that commencing Sunday, April 15, all trains operated over this line between Louisville and Lexington will arrive at and depart from the Union Station, Sixth and Broadway, Louisville, Ky. This change in stations will obviate transfer for passengers destined to points on the Lexington line arriving at that station on Louisville & Nashville trains as well as Louisville, Henderson & St. Louis, Pennsylvania lines and Monon route trains. Following will be leaving and arriving time:

EASTBOUND.

No. 18, leaves Union Station at 7:40 a.m.; arrive Lexington 10:50 a.m.; daily except Sunday.

No. 16, leaves Union Station at 2 p.m.; arrives in Lexington 5:22 p.m.; daily except Sunday.

No. 62 leaves Union Station 6:20 p.m.; arrive in Lexington 9:20 p.m.; Sunday only.

WESTBOUND.

No. 17, leaves Lexington at 8:35 a.m.; arrives Union Station at 12:05 p.m.; daily except Sunday.

No. 15 leaves Lexington 3:10 p.m.; arrives at Union Station at 6:30 p.m.; daily except Sunday.

No. 1, leaves Lexington 7 a.m.; arrives Union Station at 10:10 a.m.; Sunday only.

Train No. 18, leaving Union Sta-

tion at 7:40 a.m., will connect at Lagrange with train No. 10, which will leave First and Water street station at 7:20 a.m. for Cincinnati and intermediate points. Passengers leaving First and Water street station on train No. 10 for points on the Lexington line will transfer to train No. 18 at Lagrange.

IN THE SAME OLD WAY.

They've found out how consumption may be positively cured: Ills that used to worry people need no longer be endured. They've discovered lymphs and glands, so we have been plainly told. That will stop the sad necessity of ever growing old; They are finding out the microbes, they're advancing day by day. But people keep on dying in the same old-fashioned way.

Word may come to-morrow morning that some terrible disease has been mastered by some doctor here at home or over seas; They are stopping all the fevers and arresting all the ills. That the human form is held to with their serums and their plasters. They are causing men to wonder at their triumphs every day. But people keep on dying in the same old-fashioned way.

What a wondrous thing is science, they can take a germ from you and consult its inclinations and exploit its foibles, too; They have got over that the stomach is of very little use; They can master all its functions with the gizzard of a goose; They are cutting, they are doping, they're advancing day by day. But people keep on dying in the same old-fashioned way.

THE LIVER QUARANTINE

Efficient eating has ruined many a man's stomach. The digestion-destroying process is gradual, often unnoticed at first. But if the digestive organs will not digest the food, the body will not grow strong, and almost countless ills assaile the man who endeavors to economize time at the expense of his health.

A torpid liver causes a quartette of the most serious diseases in the human system. It poisons the body and affords the body play, inviting some serious illness.

With a sluggish liver and constipation are unknown, so are all stomach ailments, as well as intestinal diseases, headache, headache and kidney and bladder affections. No well-regulated family should be without this standard remedy.

A SIXTY-YEAR FISHING REEL.

The durability and perfection of superior hand workmanship is finely reflected in a fishing reel recently repaired by Mr. J. W. Milam. This reel of No. 1 size, bears the stamp name of B. F. Meek, and the date 1846—before the Mexican war. It has also engraven on it the name of Robt. Frazier, grandfather of Mr. R. E. Frazier, City Engineer.

After many years use by the grandfather and then by the father of Mr. Frazier, by whom it is now owned, it passed through the fire of a dwelling house that was wholly burned, damaging some of the outer works and giving it a hard rubber color. But the solid metal and gearing stood the fiery ordeal successfully, and, after a few repairs by Mr. Milam, the reel runs as smoothly and as charmingly as if just from the hands of Mr. Meek, sixty years ago.

Whilst fire can not destroy the Meek & Milam reel, neither can water harm them, for a resident of Tennessee sent to the shop for cleaning a reel that had, for twenty-one years, been lost in a stream, and which, when the mud and grit was removed, ran as merrily as ever.

A Detroit broker lately wrote that he had for years been fighting against buying a Milam reel, but, as he was now afraid he might die without owning one, he enclosed an order for a No. 3. He had evidently read how the great actor, Joe Jefferson, had, in his will, left his Milam reel to Ex-President Cleveland.

SALE TO TAKE PLACE MONDAY.

It will be remembered that Mr. D. L. Kennedy sold his handsome "Raleigh Cafe," on St. Clair street, to Peter Arlund, of Louisville, some time since.

Arlund seemed to think he had the world in a sling and commenced recklessly disposing of the estates and drinkables, without paying for same.

Our friend caught on to the game and levied an attachment on what was left to secure his money. By order of court a sale of the effects will be made by Special Commissioner N. A. Sullivan, on Monday next, at 10 o'clock a. m.

BIRTHS.

TILFORD.—In this city, on Tuesday, to Mr. Julian Tilford and wife—a daughter.

KENTUCKY HOME-COMERS IN LOS ANGELES, CAL., HAVE MEETING.

Editor Ronndabout: April 4, 1906.

Editor Ronndabout: April 4, 1906. Editor Ronndabout: held in the Chamber of Commerce and was called for the purpose of further completing arrangements for the Home Going Excursion. The Kentuckians here are arranging a grand excursion to their home state and are to go to Kentucky June 1. From present appearances there will be a large number going on this excursion. Two trains have already been chartered, which means at least 600 people, and the others are not yet closed, I think when they leave they will be 1,000 strong.

I enjoyed the meeting very much, but as I have my fare paid back home, the excursion proposition did not interest me. I am not taking part, all round I hook up with Col. Flanders from Virginia, a gentleman from New York, and a man from Ohio, and took in the sights. I want to say right here that the California people certainly are a hardy, healthy, and active lot and boom their country.

They, of course, have a good many things that are produced no where else but they certainly work overtime showing them.

There was no interest in one below showing the good points of California fruits, flowers, vegetables, poultry culture and live stock. I couldn't help but smile, for I knew we had beat a mile on everything except the fruit, which was explained in this manner, though that was new to me, and that was the Preserving Company's system of preserving eggs. By their system eggs are kept nice and fresh for over a year and the cost is practically nothing.

Mr. Luckett was a quiet, unassuming gentleman, attending strictly to business. For many years he had been night clerk at the Frankfort Hotel, and more recently at the Capital Hotel.

He leaves a wife, four daughters and one son to mourn his death.

The funeral services were conducted on Tuesday from the family residence, by Rev. Dr. M. B. Adams, and the remains were laid away in our cemetery.

A worthy gentleman has gone to his reward. Deep sympathy is felt for his afflicted family.

Yours truly,
Z. T. BULLIT.

SMITH.—In this county, on Saturday, Miss Julia Smith, daughter of Mr. Joseph Smith, aged 16 years, of typhoid fever.

The funeral and burial services were conducted by Rev. John H. Burdin, at Bethel Church, on Tuesday afternoon.

HANLEY.—In Louisville, on Tuesday, Mr. P. M. Hanley, aged 89 years.

Mr. Hanley was the father of Mr. John P. Hanley, Secretary and Treasurer of the K. D. & W. H. Co., of this city. He was an honorable, upright and highly respected citizen.

The funeral took place from the Cathedral, in Louisville, on Thursday afternoon.

DARNELL.—In Newport, on Wednesday, April 8, Mrs. Sallie J. Darnell, widow of the late Mr. Souther W. Darnell, of pneumonia.

Mrs. Darnell was well known in this city, where she formerly resided. She was a devout Christian and member of the Christian Church.

The remains were laid away in Evergreen Cemetery, Newport.

Mrs. Darnell was a sister-in-law of Mrs. Virginia Jett and Mr. W. Darnell.

LUCKETT.—In this city, on Sunday night, at his home on Holmes street, Mr. Charles W. Luckett, aged about 39 years, of rheumatism.

Mr. Luckett was a quiet, unassuming gentleman, attending strictly to business. For many years he had been night clerk at the Frankfort Hotel, and more recently at the Capital Hotel.

He leaves a wife, four daughters and one son to mourn his death.

The funeral services were conducted on Tuesday from the family residence, by Rev. Dr. M. B. Adams, and the remains were laid away in our cemetery.

A worthy gentleman has gone to his reward. Deep sympathy is felt for his afflicted family.

To get rid of the bad breath, the sickening discharge from the nose and throat, the loss of smell and taste, etc., such ingredients as Thymol, Wild Indigo, Oil of Eucalyptus, etc., must be used. Dr. Shattock's Catarrhal depurative and healing agents are there in combination with other antiseptic specifics. These are then incorporated into a soft soothing and healing imported petroleum jelly secured in Europe. When applied to disease, it has the effect of an act like magic, clearing up these troubling diseases promptly and with a marked sensation of comfort. Sold by all dealers.

LA GRIPPE.

(By One Who Has Been There.)

I tell you friends, I've had the

grippe.

For two weeks or more,

Not thinking or maybe so about it,

I know it now for sure.

Sometimes I've said to friends who

asked,

Yes, I have had La Grippe;

But now I know such talk from one

Is just a little slip.

When first this Russian visitor

Came flying 'cross the seas,

Aristocratic people said,

We want this royal sneeze.

And I in common with the rest,

Thought I would try it too.

I mean that thing that makes you

gape.

And yawn and go achoo.

The thing which helps the doctors,

The thing which helps the doctors,

Enlarge their fields for good;

Their fields of practice, don't you

see.

From which they get their food.

It helps them diagnose disease,

And saves them many a slip,

For if they know not what's the

matter,

They say: "You've got the grip."

And so we've heard some people

say,

"Bout every pain you know,

The grip is the grip I've had so much.

The doctor told me so.

To all such friends I have a word,

When this old grip you get,

You need not hunt your doctor up,

You'll know yourself,

At first it takes you by the throat,

Then hits you on the head,

In eyes, on nose, in bones, on flesh,

Until you think you're dead.

The pain is great, "Oh, my!"

It makes one cry, "Oh, my!"

And say to mother, nurse or wife,

I do believe I'll die.

One other thing about the grip

I must not fail to tell,

You're sick at least a month or

more,

After you've gotten well,

But when the aches and pains are

gone,

One thinks of naught "they say,"

For weeks,

But something good to eat

So now good-bye my friend La

Grippe,

With joy, a long adieu;

If you will stay with other folks,

I'll never laugh at you.

OUR DRUGGIST TELLS US.

We learn to-day that our local druggists have made special arrangements which carries with it an agreement to keep in stock constantly a full line of special prescriptions, recommended at the laboratories of Dr. Shoop.

A novel, yet thoroughly practical and newly-created article has just been issued from the laboratories in question, called Lax-ets and is intended as a substitute for the laxative in question. We refer to a prescription put up in candy tablet form, for the relief of constipation, sour stomach, bad breath, salivary complexion, etc. The novelty of Lax-ets arises from two or three sources. It has not even the suspicion, so far as taste is concerned, that the article is a medicine. It is candy in taste, and in appearance. Again, it is a painless, palatable and beautifully lithographed metal boxes, and retail for the remarkably low price of 5 cents per box.

On the box is printed the ingredients, consisting of Cascara Sagrada, Erythrina, Senna, Sassafras, Prunus, Sassafras, E. G. DeWitt's Witch Hazel Salve and other highly meritorious ingredients for the conditions mentioned above.

A Candy Cold Cure put up in the same style also sells at 5 cents per box and is called "Dr. Shoop's Preventive."

Patrons, we believe, will be glad to learn of the new arrangement, and particularly of the new remedies, which certainly seem worthy of a trial purchase, involving only the cost of a nickel.

S. D. JOHNSON CO.

THE GREAT WORLD'S 1 OF THE TOBACCO TRADE

At Madison Square Garden, New York, September 3, 1875, 15. Broad

Should interest every independent manufacturer and every progressive grower. The scope of the Tobacco Trade is Industrial, and will be interesting. A reader is assured that the vast majority of the independent manufacturers of Cigars, Tobacco, Cigarettes, Snuff, and all the allied arts will exhibit; while the exhibition of Tobacco plantations, with growing plants, and exhibits representing every process employed, will be a transition from the old to the new finished product. Clothing, art exhibits, and the like, of the American and Canadian Governments, will combine with many novel features to make this Exposition undoubtedly the greatest event in the history of the Tobacco trade in the world.

Madison Square Garden, the largest permanent structure for exhibition purposes in the world. Its immense floor area, including the great ground-floor arena, basement, galleries, and galleries, including the famous cone room, will be devoted entirely to the rule of the fragrant weed during the two weeks from Labor Day to October 1, to September 1, inclusive. Although the original plan is for the Exposition to be on a very ambitious and comprehensive scale, the enthusiastic response of independent manufacturers and the large number of progressive growers, as well as the decision of the American and Canadian Governments to make official exhibits of Tobacco culture, etc., has long since outrun the original plans and now there is an Exposition and Tobacco World, the like of which this earth has never seen.

Representation, by exhibit, will give a standing and prestige which otherwise would take years to acquire, through the power of the Exposition, in nearly six months off, already about half the available space for exhibits.

Nature's Way Is Best.

The function strengthening and tissue building plan of treating chronic, lingering and incurable cases of disease as pursued by Dr. Pierce is now followed by many restorers of health.

Dr. Pierce's natural remedies, that is, common native medicinal roots, prepared by process of decoction and made without the use of alcohol, and in combination in just the right proportions.

Dr. Pierce's plan of treatment, which he claims is the best, is now followed by many restorers of health.

Dr. Pierce's plan of treatment, which he claims is the best, is now followed by many restorers of health.

Dr. Pierce's plan of treatment, which he claims is the best, is now followed by many restorers of health.

Dr. Pierce's plan of treatment, which he claims is the best, is now followed by many restorers of health.

has been secured by those intending exhibitors who do not wish to be disappointed in delay in the matter until the choice locations are gone. Still, the capacity of Madison Square Garden is stupendous and some choice spaces still remain to be secured by those who desire to exhibit and profit by the tremendous advantages both general and personal, which will come from this great Exposition. As an indication of the scope and importance of this tremendous event in the history of the world, it may be mentioned that arrangements are being made to accommodate nearly half a million visitors.

Mr. William B. Turk, General Manager of the Tobacco Trade, Inc., the Exposition whose offices are in the Platford Building, New York City, deserves great credit for the able and practical way in which he is handling the enormous detail connected with an International Exposition of this character.

The Western Tobacco Journal has for some time past had its own representative in New York City making a thorough investigation of the tobacco trade, and the result of this investigation is to be published in the coming Exposition, with its probable effect on the independent trade. As a result of this very thorough investigation the Western Tobacco Journal, in consequence of its unbiased and independent attitude towards the trade, this coming great event and its able management, and urges all manufacturers of Tobacco, Cigars and Cigarettes, machinery, supplies, etc., who are interested in developing their business, to mount their trade to be represented by exhibits. We also especially urge upon all progressive growers and planters, as well as all the trades allied to the culture of Tobacco, the great advantage of exhibiting their product before the eyes of the Tobacco trade of the world.

Itching cures? Never mind. If physicians have failed to cure you, there, Dr. Doan's Ointment. No failure there. 50 cents, at any drug store.

PROSPECTUS OF "THE CROWN-SADER."

This paper will be a 20 to 28 page Independent. Illustrated monthly, printed on enameled paper, with handsome cover design in three colors. Size and form of *Illustrated News*, similar to that of *Collier's Magazine*. It will be published at Frankfort (at the price of \$1.00 per year), and edited by Col. Nod Gaines, in the interest of true freedom of the press. The first issue appearing next month.

We will stand strenuously for the enforcement of all laws, and for the swift punishment of all "insurgent officials" who refuse to execute the laws, or who are guilty of the suppression of gambling and graft; and for the extermination of corrupt political bosses—the greatest enemies of a free Republic—because of their destruction of the Arch St. Louis, and the safety of the ballot. We will strive, by example, and will also advocate temperance and right living by our citizenship.

We believe we will have a feeling enforcement of all laws, and a sound and honest administration of government, only when the influence wielded by the lawless elements in a community is effectively broken, and we believe the only way to break that corrupt influence is to effect the same. Such will be our determined aim.

Therefore, we will stand steadfastly for the rights of all the people, which is to say, we are for freedom and righteous rule, and believe an assemblage of a privileged few. And, that the greatest good to the greatest number may not remain a myth, we will stand vigorously and openly in "The Great Publicity Movement" that is about to sweep furiously over our entire state and nation. "RUFUS RUGG."

"RUFUS RUGG."

Tim Murphy is to be the attraction at the Capital Theatre on April 19, when he will present "Rufus Rugg," a three-act pastoral comedy of sentimental family life, especially written for the stage by Dr. Paul Wiliat, who some seasons ago wrote for Lisneuse that splendid play, "A Capital Comedy." This latest play, "Rufus Rugg," presents Tim Murphy in a rôle admirably adapted to his requirements as he is seen as a quaint loving, self-sacrificing country schoolmaster and is given many opportunities for the enactment of comedy and farce. His rôle is a difficult one, but his efforts have been followed in this line by Joseph Jefferson and Sol Smith Russell, and as the entire atmosphere of "Rufus Rugg" is one of quiet, gentle sentiment, it is to be hoped that the play should prove an unusually good vehicle for his requirements. Dr. Murphy presents the comedy with the assistance of a fine supporting company, and with every attention given to the production that his long characterized all his presentations.

Dr. Shoop has created at his laboratory a superior sweet, toothsome candy tablet named Lax-ets. The ingredients are printed on the very attractive little lithographed metal boxes in which the tablets are sold. Each tablet is composed of 5 grains per box. A better, safer or more certain laxative than Lax-ets is, Dr. Shoop believes, absolutely impossible. Lax-ets are for Constipation, Sour Stomach, Bad Breath, Skin Complaints, Biliousness, Headache, Dizziness, etc.

Dr. Shoop has created at his laboratory a superior sweet, toothsome candy tablet named Lax-ets. The ingredients are printed on the very attractive little lithographed metal boxes in which the tablets are sold. Each tablet is composed of 5 grains per box. A better, safer or more certain laxative than Lax-ets is, Dr. Shoop believes, absolutely impossible. Lax-ets are for Constipation, Sour Stomach, Bad Breath, Skin Complaints, Biliousness, Headache, Dizziness, etc.
